

Surface Design on Fabric

This fast-paced workshop takes participants on a tour of surface design and embellishment.

Cloth maybe painted, dyed, printed, bleached, textured, slashed, appliqued, fused, beaded, embroidered, embellished with found objects... well, you get the idea. Anything goes!

We discuss how to keep a sample journal, make our own tools, and source fabrics.

Through demonstrations and hands-on experiments you'll leave with plenty of samples and ideas!

Classes offered locally, email for more information
